# PROJECT CARGO

- We have an Internal Project Cargo Department, composed of a specialized team through which:
  - **We do follow up and we advise our clients' project teams**, optimizing the cargo transport in question in a cost-efficient and safe way.
  - **We coordinate and develop detailed studies** of all the phases of road, sea and air transport.
  - **We verify and control all the critical steps of the transshipment works** - operations of: stowage, lashing and documents.
  - **We prepare physical, technical and legal feasibility studies** of local and international transport through Road Survey.
  - **We develop and prepare the packages and anchoring points** needed to guarantee the transports safety and good conservation of the cargo.
  - **Physical Follow-up** – Of all the transport, from the loading operation to the unloading one

Any size. Anywhere.

Safe & secure.

# WAREHOUSING & DISTRIBUTION

- We offer a range of services, among them the need for warehousing and distribution.
- Around the majority of Indian ports, we have closed and open storage sites.
- Our top concern is to keep the space where the stored goods are kept clean and safe.
- Therefore, we use cutting-edge technology and constant security.
- At all major seaports, airports, ICDs, and SEZs are open and covered warehouses as well as temperature-controlled warehouses.
- Focuses on warehouse solutions that are both bonded and non-bonded.
- Delivering specialized supply-chain solutions is made possible by our robust international freight-forwarding network.
- All of our locations have CCTV cameras and 24 hour security systems.
- Our goal is to assist you in rationalizing your inventory levels so that you can reduce the expense of carrying that inventory.
