Seafood inc. Salmon & Lobster

Wiseway Perishables Strengths

- EXDOC for fresh meat, dairy, plant, fish, eggs, fruit and grain
- Quarantine approved premises for fresh meat, dairy, plant, fish, eggs, fruit and grain
- Perishable Team has a over 100 years of combined experience
- 4 different temperature zones - all adjustable and electronically monitored and alarmed for deviation
- Unique packing technique to maintain 4 degrees throughout the whole transit

Wiseway Fumigation and Cold Treatment Facilities

- Fumigation is a process where insecticide gas is released into a sealed chamber
- Countries have protocols which require certain fruit to be fumigated and/or cold treated before entry is allowed into their country
- Examples – for China export
 - Australian nectarines, peaches and cherries need to be fumigated to kill fruit flies
 - Citrus and grapes need to undergo cold treatment to kill the insects
- Wiseway now has this capability with new state of the art dual fumigation/cold treatment facilities built in Sydney and Melbourne

Thank you
