

**ZIEGLER**<sup>®</sup>  
Excellence in supply chain

## Simplify your supply chain with multimodal transport

- Advice, analysis and design of international combined transport solutions
- Advance booking of capacity in line with flow planning
- Implementation of intermodal synergies for cost reduction and time optimization
- Securing goods with a minimum of load breaks and end-to-end tracking
- Selection of the most carbon-efficient means and routes

## Our history

Founded in 1908 with headquarters in Brussels, Ziegler Group is a leading global logistics service provider.

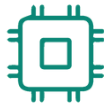

With over 3,200 employees worldwide, Ziegler operates a close-knit global network with 156 branches in more than 16 countries and partner companies in further 80 countries. Unlike large global transport groups that operate with an aim for industrialisation, the Ziegler Group has always committed itself to remain at a human scale and family-run business. This gives us a flexibility that allows us to offer tailor-made services as needed.

## Ziegler: a future-focused Group

### SUSTAINABILITY

Green buildings and warehouses  
Using new energy sources  
Reducing CO2 emissions

### TECHNOLOGY
