

PT. PRATAMA EXPRESINDO LOGISTIK
INTERNATIONAL AIR & SEA FREIGHT FORWARDER & TRADING

PT Pratama Expresindo Logistik (PEX Logistics) is the most innovative logistics company that reaches out to provide comprehensive logistics solution. The young and dynamic management team at PT Pratama Expresindo Logistik (PEX Logistics) contributes greatly with their new thinking by adapting new technology, applying latest and modern methods in the field to help the needs of customers.

We constantly strive to develop better, more efficient ways to do business, whether it is by implementing cutting-edge technology, in creasing the number of services we provide or expanding our network of brances and ware houses.

COMPANY MOTTO

Trust commitment service for total customer satisfaction.

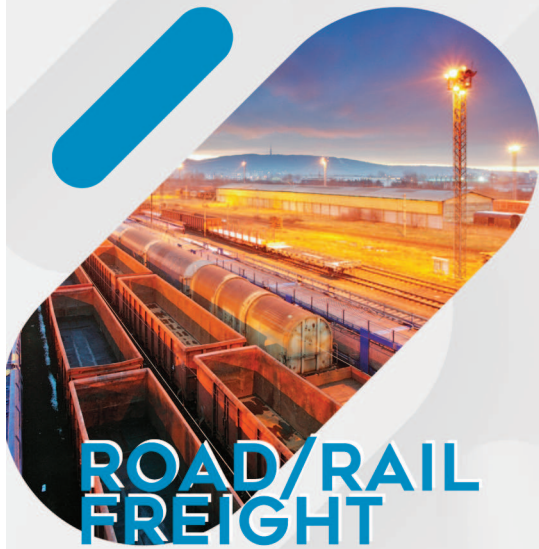

ABOUT US

VISION AND MISSION

To be a local logistics company with international logistics services standardization, by professional, smart and hardworker team, who working with methodologist and systemic and able to used technology information and innovation to deliver services as business necessary.

OUR SERVICES

ROAD/RAIL FREIGHT

PT Pratama Expresindo Logistik (PEX Logistics) is a flexible partner for overload transport across the world. We ensure domestic and international transportation is reliable and efficient for customers from all walks of life.

Comprehensive ground transportation services consists of more than 130 road terminals in more than 42 countries, over 4,500 weekly international departures, door-to-door tariffs and full tracking capability, all supported by customs experts in more than 300 offices.

Air Freight is an essential component to any international logistics network. We can offer you choice and flexibility over the type of service available when sending freight by air.

When you book your air freight service with PT Pratama Expresindo Logistik (PEX Logistics), we also offer an optional collection service so you can have your goods collected from your door. Air Freight services with collection operate from your door and are shipped to the destination airport where they will need to be received by your recipient.

AIR FREIGHT

When your cargo spends a week or two on the ocean, you want a service provider that has access to information and competitive rates. Your ultimate choice for shipping your valued shipments. Our ocean freight team is available to meet the challenges and deadlines of your overseas shipping itinerary. We can ship FCL or LCL shipments anywhere in the world – door to door.

FULL CONTAINER LOAD

Based on carrier routing options, FCL is our best transit-time-to-cost combination product for full container loads. FCL offers complete schedule flexibility, a high frequency of sailings per port-pair, and availability of equipment.

LESS THAN CONTAINER LOAD

A competitively priced consolidation product, LCL offers the highest levels of schedule integrity. Due to our freight consolidation expertise and regular worldwide connections from point to point, LCL provides you with reliable performance and a lower supply chain cost.

SEA FREIGHT

LAND TRANSPORTATION

Move goods from factory to warehouse, either internationally, nationally, regionally and inter-facility or distributor, may spend more than half of the total cost of logistics. If you add the cost of transportation of international sourcing and final delivery to the store or distribution to end customs, these costs can rocket even higher. Transportation management solutions provide the resources and visibility you need, at a cost you can manage.

We managed your vehicle, providing a dedicated vehicle or a combination of both, we provide the best service, reliable and able to control the movement of your goods to the customer.

Our customs clearance agents are experts in local specifications, conditions and regulations. This on-the-ground knowledge allows them to handle complete administration tasks for you swiftly and without complications. Our comprehensive menu of services incorporates preparation of all necessary declarations and reporting to authorities. Furthermore it includes electronic pre-filing, customs consultancy and documentation processing as well as security sealing and certification.

To minimize your customs issues, we provides import and brokerage systems integrated into our global sea and air freight operations, brokerage services handled in-house by licensed professionals to the extent permitted by law, information system interfaces that are connected to customs authorities where available.

CUSTOM BROKERAGE

One of the most important element of supply chain management is warehousing. The proper storage and tracking of inventory ensures that delivery times are met and asset management costs are reduced. We offer our customers flexible storage option with excellent warehousing facility. Our warehousing facilities are completely equipped to handle bulk cargo including various other requirements such as break bulk.

We are also capable of handling cargo that is in units, packages, crates, bags and much more. Well guarded and spacious, our warehousing provides complete safety of the goods. Keeping the goods intact and impervious to any kinds of damage, our warehousing facility is available throughout the country.

WARE HOUSE

Project specialists in our company offer solutions for professional handling of oversized and heavy cargo. This coupled with all the necessary equipment and experts to handle the most complex road haulage projects make our company the partner of choice for our clients.

Transportation of odd and over-dimensional cargo to project sites in India as well as overseas, and ensuring that the equipment is duly returned to the principal constitutes the core of project cargo handling. Movement of project cargo requires special equipment and handling, as it does not fall within standard measurement or method.

Our experiences enable us to identify the most cost effective route, allowing our client to ensure the timely delivery of their equipment as well as security of it while in transit.

Timely delivery to all Indonesian cities safe and comfortable and responsibilities are not separated from the target's commitment us. PT Pratama Expresindo Logistik (PEX Logistics) focus primarily made with various price offers highly efficient.

Domestic services shipments we handle are : Delivery of Heavy Equipment, Dump Truck, Car, Cargo, Motorcycle, etc.

Transshipment is the shipment of goods or container to an intermediate destination, and then from there to yet another destination. The possible reasons for transshipment is to change the means of transport during the journey (for e.g. from ship transport to road transport), which is known as trans loading. Another reason could be to combine small shipments into a large shipment, dividing the large shipment at the other end.

Our air transshipment services includes CN38, Handling, Re-Docs and Re-packing.
