WELCOME TO OUR COMPANY

ABS Logistics entered the International logistics industry in 2009 , to redefine the logistics solutions provided to organizations. Founders of ABS Logistics are backed by more than a decade experience in the Freight Forwarding & Custom Clearance business. As our presence grew in the country, we soon became one of the preferred choice for a growing number of organizations . Our hands were so full that we had no choice but to expand from a family-owned business to a full-fledged organization. But at its core, every ABS employee continues to value integrity, rigorous work and success. We always believed in long-term partnerships and with 45 employees and over 6 locations, we are one of the country's leading freight forwarding & Custom Clearance companies .

ABOUT US

ABS Logistics entered the International logistics industry in 2009 , to redefine the logistics solutions provided to organizations. Founders of ABS Logistics are backed by more than a decade experience in the Freight Forwarding & Custom Clearance business. As our presence grew in the country, we soon became one of the preferred choice for a growing number of organizations . Our hands were so full that we had no choice but to expand from a family-owned business to a full-fledged organization. But at its core, every ABS employee continues to value integrity, rigorous work and success. We always believed in long-term partnerships and with 45 employees and over 6 locations, we are one of the country's leading freight forwarding & Custom Clearance companies .

Our mission continues to resonate within the entire ABS brand and to each of our clients as we try to provide them timely delivery of products at the most competitive prices and with the least amount of headaches.

Whether you have chosen us for moving one shipment or to manage your entire department, we emphasize on being efficient and use cost saving methods to provide the best services to our clients. In addition to the usual logistics solution, we also offer value added services in the form of courier services, fumigation, plastic palletising and assistance in the application of the certificate of origin.

ABS Logistics augments customer experience by using the ideology of one contact person per customer. This helps the customer deal with the same person throughout the movement of goods making it easier for our clients to establish contact and understand the status of their shipments.

OUR SERVICES

AIR SERVICES

ABS Logistics is an IATA accredited air freight forwarding company. At ABS we understand how critical is the timing while moving cargo through air freight option. Our team is experienced in handling all type of cargo be it perishable, over dimensional , DG , Defence equipments or pharmaceuticals by air freight service. Having more than 15 years of experience in air freight industry, ABS Logistics is one the well renowned air freight company having direct contract with many airlines. From packaging and cargo measurements to scheduling route times and custom clearance , our team provides expert guidance and instant communication so our customers can deliver their cargo within the time commitment.

ABS Logistics is an MTO accredited freight forwarding company having yearly contracts with all main shipping lines like MAERSK, MSC, HAPAG LLOYD, CMA CGM and many more. On the seven seas, ABS Logistics cover all freight requirements on Full Container Loads (FCL), Less Than Container Load (LCL), RO/RO Services, BREAKBULK Cargo movement, Special Equipments like Reefer, Flat Racks, Open Top Containers. Regardless of origin or destination , cargo size or complexity, ABS Logistics ensures a safe and reliable transport from origin to destination. Our Global network of agents and partners help us to move shipments to/from across the globe

SEA SERVICES

WAREHOUSING & DISTRIBUTION

ABS Logistics helps you match supply with demand within the timelines you have defined for yourself and your customer. We provide dedicated and shared warehousing and distribution operations world over. Our services include full pick-and-pack operation, temporary storage after cargo consolidation prior to container loading, either for one off shipments or turnkey projects. We also have the required infrastructure for export packing and palletization.

Team ABS Logistics is one of the leading custom clearing agents in India offering services at all major ports and airports PAN India. Each country operates under different sets of rules and regulations and these regulations change almost on daily basis all over the world. Our team is constantly in touch with counterparts across the globe to understand the changes in the custom requirements and assist customers accordingly to avoid any penalty or demurrage by the custom officials. Our Team is well experienced in handling custom clearance of variety of products ranging from raw materials to heavy machines to automobiles to aircraft parts. We provide single window solution for all custom clearance requirements.

CUSTOM CLEARANCE

OUR PROJECT & ODC CARGO HANDLERS

With our years of services , ABS Logistics have become synonymous with special bulk project cargo as major multi-national companies and government departments have solicited our services for special events. We have handled movement of over dimensional machines right from the supplier warehouse to destination without any hassle. Team ABS Logistics is well versed with all the processes and requirements in handling the movement of ODC and Project Cargo across the globe.

We are really thankful to our global partners who have always supported us and helped in the movement of project cargo for our reputed clients.

Project Cargo requires immense Expertise, Experience and Knowledge.

ABS can meet all the Requirements. How?

1. Quality Engineering Team
2. Deep analysis of
 - Complexity
 - Maximun Weight & Dimensions of Carrying Equipments
 - Consolidation points
 - Client Delivery Obligations
