

PT. Samudera Wulan Indonesia

A Company With Sincerity

At PT. Samudera Wulan Indonesia, we offer the complete range of transport and logistics services. As an independent, privately-owned, Indonesia-based provider of international freight forwarding and project logistics solutions, we understand what it means to start small and grow fast. We are committed to delivering on time, on budget and beyond your hope.

• Air Freight

We offer tailor-made solutions to provide an optimal combination of lead time and cost-efficiency to meet your expectations and fulfill your specific needs. Our service network is comprised of contracts with major carriers, as well as many niche operators to provide global coverage door-to-door.

• Project Cargo

Shipping project cargo is our specialty and we have years of experience with complex projects, such as moving out of gauge equipment that doesn't fit in standard shipping containers, ground shipping heavy lift equipment that is too heavy to be moved on major roads, and transporting high-value equipment on a tight deadline. When you are facing a shipping challenge, utilize our project cargo service.

• Domestic Trucking

We specialize in international freight transportation services, but we also have the resources and connections necessary to provide fast and affordable domestic ground shipping. We can move your products with cargo vans, flatbed or heavy haul trucks, reefer trucks and even more trucking solutions. We can also provide pallet jacks and lift gate equipment to help unload your shipment more quickly once it reaches its destination.

• Ocean Freight

We can transport your goods to/from any major port, with all major shipping lines and consolidators. We will help you find the most cost-effective way to move your cargo, whether you require FCL or LCL freight service. We are well-equipped to handle challenging ocean freight transportation projects and can move hazardous containers, perishable goods, RORO or Break-Bulk equipments and more.

• Full-Service Customs Brokerage

- Fast-tracking customs clearance:
Negotiating the best outcomes for your export and import cargo while fulfilling all legal requirements.
- Warehousing:
Finding the optimal solutions for your storage needs, whether short or long term, packing and crating, etc.

• Import and Export Consultation

The rules and regulations for importing and exporting goods can get complex.

We can assist with all shipping documentation and even act as a liaison between your business and the government agencies that need to approve your merchandise.

Advantages:

- Air & Sea Freight
- Customs Brokerage
- Dangerous Goods

- Project Cargo
- ISO Tanks
- Inland Trucking
