- ✓ Road transport solutions between African cities

# TIMAR Senegal

Created in 2011, TIMAR AO is the first of the 4 West African subsidiaries of the TIMAR group

**International Transport (Air, Sea, Road) and complete logistics solutions from and to Europe, North Africa, America and Asia**

Ideally located as a hub for West Africa, TIMAR AO (Senegal) offers international Road transport solutions for full trailers between Dakar and other African cities.

With our Overseas department, TIMAR AO also offers container groupage solutions (LCL) from Europe and Morocco to Dakar as a hub for neighboring countries with regular departures and controlled deadlines with unloading in our own warehouse.

Its integrated customs brokerage service, coupled with our private bonded warehouse and located outside the port of Dakar, allows you to offer customized, "door to door" logistics solutions.

With a consignment and handling agreement, TIMAR AO provides assistance for all types of vessels in Dakar and in river ports as well as the handling of all types of products.

Our Airfreight team at AIBD airport optimally processes your various exports and imports from pick-up to delivery.

Over the years, TIMAR AO has developed expertise in the management of liquid bulk flows - peanut oil and fish oil in flexitanks - thanks to its Projects team

Our Fairs & Events department offers you exhibition material transport & customs brokerage for your trade shows and private events.
